

IMPORTANT ANNOUNCEMENT

Coronavirus COVID 19

During these stressful times BEXs understands, that our clients and partners still require their Fiduciary needs, to be satisfied. We also know that the coronavirus is spread through respiratory droplets produced when an infected person coughs or sneezes. Therefore, we realise that there may be some reluctance for clients to meet face to face with a BEXs representative, and that it is in the best interest of all stakeholders that we heed the advice, to practice social or business distancing.

Knowing how important it is, for your Fiduciary affairs to be up to date at all times, especially during the pandemic, BEXs is more than happy to discuss your Fiduciary needs telephonically or by video conference call (WhatsApp, Zoom, FaceTime or Teams).

Services such as: -
Amendments to your Will
New Wills
Estate Plans
Discussions on Trusts

can conveniently be done by telephone or video call. Special arrangements will be discussed regarding the signing of your Will, once you are happy with the draft.
